

# Fundamentals of Diagnostic Imaging (CLSC-5102)

## Lab Calendar, Summer 2011

| WEEK | DATE      | TOPIC  |
|------|-----------|--|
| 1    | May 13    | No Labs – National Board Exams                             |
| 2    | May 20    | Orientation – Lab #1                                       |
| 3    | May 27    | Talking about films – Lab #2                               |
| 4    | June 3    | Clinical scenarios, Part 1 – Lab #3                        |
| 5    | June 10   | Controlling optical density and contrast – Lab #4          |
| 6    | June 17   | Clinical scenarios, Part 2 – Lab #5                        |
| 7    | June 24   | Screens – Lab #6   |
| 8    | July 1    | <b>Midterm Exam</b> ; 7:00 AM in the classroom; no labs    |
| 9    | July 8    | Filtration, collimation and grids – Lab #7                 |
| 10   | July 15   | OFD, FFD, magnification and inverse square law – Lab #8    |
| 11   | July 22   | Advanced Imaging, Part 1 – Lab #9                          |
| 12   | July 29   | Advanced Imaging, Part 2 – Lab #10                         |
| 13   | August 5  | Review   |
| 14   | August 12 | <b>Final Practical</b> ; 7:00 AM in the classroom; no labs |
| 15   | August 15 | No Labs – Final Exams                                      |
