

Accreditation

Dear Prospective Students,

Parker University is institutionally accredited by Southern Association of Colleges and Schools (SACS). Accreditation is a sign that an institution has met an external set of criteria for its institution. Parker University is also accredited by Commission on Accreditation of Allied Health Education Programs (CAAHEP) in General Sonography.

Registration with American Registry for Diagnostic Cardiac Sonography (ARDMS) requires passing the Sonography Principles & Instrumentation (SPI) Examination in addition to passing the Cardiac Credentialing International (CCI) exam. Students will be required to pass the SPI examination before graduation. Upon successful completion of the SPI and CCI exam, students will be eligible to take their ARDMS exam.

I have read and understand Parker University is SACS accredited and CAAHEP accredited as a General Ultrasound Program and not in Diagnostic Cardiac Sonography. In addition, all questions regarding the above disclosure have been answered. I hereby acknowledge the consequence of the above disclosure.
