

## Radiologic Technology Program

### Instruction:

You must also upload all records (immunization, CPR, health insurance, etc.) at the same time. If you have trouble, then please email your forms to Carrie Miles at [cmiles@parker.edu](mailto:cmiles@parker.edu).

### Vaccinations:

You are required to have all necessary vaccinations as indicated per program policy. Most need to have been completed PRIOR to admittance into the program. If you have had the vaccine, then you may get a blood test or titer to determine if you have immunity. If you do, then we need the record of this titer, otherwise you will have to get the vaccine. A health check-up from a physician of your choice is also required. See below for details.

<b>Measles, Mumps, Rubella (MMR)</b> Given in a series of two shots
<b>Varicella (VAR) (AKA: Chicken Pox)</b> -You must have the vaccine OR a titer -Having chicken pox is not enough to determine immunity
<b>Tetanus, diphtheria, &amp; acellular (TDAP, DTP)</b> -Has to be within the last 8 years as they are only good for 10 years and you need it to be current throughout the program
<b>Tuberculosis (TB)</b> -Please completed within 3 months of application due date -If completed prior, must be within one year and you will need another one while in the program as they are required every year. -A negative skin test or negative chest x-ray is acceptable -May require 2 consecutive negative readings
<b>Hepatitis B (HEPB) (Only good for 20 years)</b> -Given in a series of three shots -Must have at least started the series (one dose)
<b>Meningitis (MV)</b> -If born prior to 1995, you are not required to have this. -If born on or after 1995, you must have proof of vaccination.
<b>Influenza (IIV, LAIV)</b> -Required during flu season, not required for admittance -Flu vaccine performed once yearly during flu season (Sept.-April)

### CPR/Basic Life Support

You are required to have current certification in American Heart Association Basic Life Support. No exceptions! **If you have CPR certification from another entity, it will not be accepted.**

### Health Insurance

You are required to carry current health insurance throughout the program.

**YOU are responsible for monitoring that all of the above remain current during the program.**
